Tashkent, Republic of Uzbekistan.

**Annotation:** *Educating young people in the spirit of patriotism, loyalty and devotion to the ideas of independence, strengthening the sense of involvement in the development of the country, expanding the role of culture and art in expanding their participation in the process of all-round creativity. organization and implementation of various television and radio, Internet projects for the purpose of broad education.*

**Keywords:** Cultural show, symposium, cornerstone, intellectual-spiritual, steps, architecture, festival, conference

## I. INTRODUCTION

Formation of high artistic taste of youth on the basis of hymns and masterpieces of modern national music and world art;

- Search, support and encouragement of promising creative and talented youth;
- Conducting concerts, festivals, competitions and various cultural shows in order to educate the younger generation in the spirit of patriotism, respect for our national values, support the aspirations of youth in the field of culture and art;
- broad promotion of unique samples of national music and singing of the peoples of the world;
- Effective organization of regular events of winners and outstanding participants of competitions, festivals and various projects in the field of culture and art, as well as creating a creative space for them;
- Organization and holding of scientific and creative symposia and conferences, as well as master classes.

## II. MATERIAL AND METHODS

Our sacred values, our high spirituality depend on the determination of spiritual education, which is the basis of our great history and the path of universal progress. In his book "High spirituality is an invincible force," President Islam Karimov said: "We all know that love for music and art has been formed in our people since childhood. It is difficult to find a person in our country who does not have a dutar, doira or other musical instrument. It can be said without exaggeration that the most important thing today is that musical art has a greater and stronger influence on the development of our young generation in the spirit of high spirituality than any other kind of art." These words highlight the importance of music education.

Musical art by its nature depicts the life of people, their relationship to vocabulary and various inner experiences through musical sounds, artistic images. Music is one of the most important sources of education in the national spirit, which has a strong influence on human life. is an important.

## III. RESULTS

Undoubtedly, the basis of the next initiative of the head of our state, aimed at increasing the knowledge and potential of young people in the field of music, is a well-thought-out goal and content. When we think about it, the values and dreams that have always cherished by our people come to life in our minds, and the most valuable of these bright intentions, of course, is associated with the upbringing of a harmoniously developed generation.

Our ancestors, who laid the cornerstone of world civilization, studied literature, astronomy, medicine, mathematics, the history of geometry, architecture, painting, any field of study, and knew the spirit of music.

Special sections on music in the works of the Sultan of Medicine Abu Ali ibn Sina, Kitab wush Shifo (Book of Healing), Encyclopedia (Book of Knowledge), Un Najot (Book of Salvation) (Treatise on Music ») Occupies a special place in the history of world art.

## IV. DISCUSSIONS

The list of such encyclopedists can be expanded. Musicians such as Ali Kochak Tanburi were so famous in their time that their names were pronounced along with the name of the musical instrument on which he himself played with great skill.

In his book *The Laws of Medicine*, Ibn Sina assesses the influence of melody on the human psyche: "For a child's body to become solid, two things are necessary: first, shake it slowly, and second, a mother's song. The first is the body of the child, and the second is the soul."

The great poet Cholpon expresses in his poems that music is not just an ointment against the diseases of the nation, but can awaken it and inspire it to higher goals.

During the years of independence, significant steps have been taken to further develop the great roots of art - luxurious art palaces were built, prestigious educational institutions were opened, various competitions and awards were offered. has become a good tradition.

They noted that the new initiative of the head of our state in this regard is very important for the timely implementation and education of the unique abilities and talents of every child living in our country.

Music, which expresses in elegant colors the achievements of human existence, life, thoughts about his life, inner experiences, imagination and thinking, is able to unite hands and hearts on the path of good.

## V. CONCLUSIONS

The proposal of the President of the Republic of Uzbekistan Shavkat Mirziyoyev to teach our sons and daughters to play a musical instrument, in general acquaintance with music, is significant in that it is aimed at spiritual growth and sowing seeds of goodness in their hearts.

In the growth of the intellectual and spiritual level of modern youth, talented musicians from among our talented youth serve to spread the glory of Uzbekistan in the world, to spread immortal works of art - pearls of our national culture, invaluable for the discovery of art critics.
