1. INTRODUCTION

Zahriddin Muhammad Babur's "Boburnoma" is the first source to study the life and work of Babur. Not only his life and work, but also Babur's contemporaries of the late 15th and early 16th centuries, serve as a great program in the study of our great history.

2. MAIN PART

When we read Boburnoma, we see that Bobur openly expresses his attitude to events, friends and enemies, and takes a critical look at his actions. This once again increases the scientific and historical significance of the work.

The work is carefully written, which provides a broad and complete account of the events of each year, the traditions, plants and animals that are unfamiliar to the Uzbek reader.

This work was originally called The Incident. Later it was renamed "Vaqeoti Boburi", "Voqeanoma", "Tuzuki Boburi", "Boburiya". In the end, it became known as "Boburnoma". The play depicts the events of 1494-1529 in Movarounnahr, Khorasan, Afghanistan and India. There are more than a dozen manuscripts of "Boburnoma", which are stored in various libraries around the world. In Uzbekistan, Professor Fitrat first published excerpts from the Boburnoma in 1928. The Boburnoma has been translated into various Oriental languages since the 16th century.

Dozens of works of art about the life and work of Babur were also created. Muni Lal Babur from India has written 6 novels about Baburis. In Uzbek literature, P. Kadyrov, B. Boykobilov, H. Sultanov wrote novels, short stories and epics dedicated to Bobur.

In this century, when Babur fell asleep while praying in 1502 in a place called Karnon, near Akhsi, in the face of death, Babur dreamed that Khoja Ubaydullah Ahror, one of the most revered figures of the Islamic world, would enter his dream and help him.
