

Ethiopian Amhara Genocide the Case of Oromia Region in Wolega

Derese Simegnaw Alehegn

Queen College and Hawassa University

Ethiopia, Addis Ababa

Abstract: "...just like Ethiopia's Welega massacre, armed rebels in Hager Mali launched an attack and massacred more than 130 innocent citizens of the country."...The attacker of the country's government is an armed group called "Katiba Macina" and last Saturday night, the government declared that at least 132 innocent people were brutally killed in at least three villages in the Mopti region, Bankas rural community."...The good news is that following the attack, the Malian government has officially declared a three-day national day of mourning today. Flags will be flown low. Music will not be played. The mourning will be the mourning of the country. The solution is simple."...Ethiopia, since last week, in Gambella and Oromia, a total of more than 2,000 citizens have been massacred by government militants and insurgents. Only in Wolega, Wolo Amars, those who are Muslims, have been selected and massacred. Even those hiding in mosques, even children and young women have been slaughtered. They have been massacred."...Regarding this, Dr. Dessalen Chane, the elected Member of Parliament, asked at today's parliamentary meeting to at least issue a statement of condolence, offer a prayer of conscience, and declare a national day of mourning in the country, but the speaker of the south angrily stopped him, saying, "Keep your ceremony, it is not possible." And the chosen ones of the father have left the hall."... Abiy Ahmed has started a grafting program for the murder scandal. And he calls you an Oromo murderer?"

OROMIA REGION IN WOLEGA Section 1

"...We are going to be in East Wolega Kiremu and Gida Ayana district. Kiremu district is a district 130 km away from West Gojam and it is a district where many Amhara natives live. The district has 17 kebele and it is a district where the people who have been massacred and paid the price due to the prosperity conspiracy of the extremist Shenene OHDE. .

"... the farmers and the Amhara people who were displaced from all kebeles and engaged in similar work in three kebeles, namely Haro Addis Amald, Bajin Maryam, Woftsi Giorgisna, more than 200 thousand Amhara people have been displaced from the city of the district. It has been a year and three months since they were displaced. They have never received any humanitarian aid. They don't consider him as a human being. Even in their mouths, they don't care about the Amhara as much as they care about the Tigris. In fact, the prosperity cadres of the district feed their suffering saying that there is an extremist who came from Gojam. Thank the creator, but we are still alive because of his kindness.

"...The Amhara is killed by the Shene and the government. The Shene is supported by the government and the Oromo people. The one who is saved in the middle is the Amhara. The government will take down the weapons of the legally armed Amhara. It will arm the Shene again. When he calls, he goes in and slaughters babies and newborn women. And the people freely loot the cattle, grain, and money of the Amhara. This is how the Oromo people, the ONG Shene and the OHDE have been doing things for the sake of prosperity. Even later, a new good event happened to the Welega Amhara...

The case of Amhara of Wolega

...Even later, a new good event happened to the Welega Amhara...we stopped it. We'll continue where we started...

"...even later, even though his property was destroyed, he lost his resources, and he faced a great human and moral decline, the Amhara began to organize in the land of Wolega. He began to organize to defend himself and in a coordinated and very sophisticated manner, he began to sniff out men and women so that his descendants would not disappear from the web. He starts flexing his arm.

"...The recent incident has created a very good thing for the Amhara. The incident is something that will cause conflict between ONL Shemen and OHDE prosperity for the foreseeable future. What do you think? The story is like this. As usual, the leaders of prosperity have cleaned the Amhara in this place for OLF Shene until this day, and we will cover you, and the federal government intervened. It should not be pushed. They say that if he issues a statement, the Shene say that it is good to take the weapons from the hands of the Amhara, as usual, for the sake of the prosperity. In the presence of the defense, Oromia police, zone and district security officials, they gather the Amhara and tell them to hand over the weapon in your hand to the government, even if it is legal. The law-abiding Amhara do not know what the law is. He understood that the bloodsuckers were going to kill him, so he agreed for the time being, collected an old weapon in his hand and handed it over to them.

"...In the evening, on the tenth day, it was said that they surrounded the district with a machine gun, the black Clash, Dishka, and a sniper that insulted Abiy Ahmed's Fanon.

With a drone or a bullet..?

"...I received a photo of a pile of corpses, which is said to be a drone attack in West Welega, and which is circulated only on Oromo activists' pages. As the news is circulated only on Oromo supporter pages of the OLF army, it was not possible to confirm the situation from another independent party. For me, "I am Ethiopian; If you are shouting equally at all citizens, report this drone attack too." They warned me angrily. I will report it back, but first I have a question. I hope you answer it for me. My question is:

A: There is no network in the place where the accident occurred in Welega. And how did it work just for you? What should I check?

Hu: The pile of corpses can be seen in the compound of the Commercial Bank of Ethiopia and in front of the compound near the entrance gate. And what was this guy doing with the bank?

Hi: If the accident is a drone, is it a drone accident? I know that drones are explosives, not bullets.

Ha: If it's a drone, the house, the door, the field is nothing, but the person where the drone bomb landed is found without being torn apart...? I asked, did I miss the answer? But their deaths make me sad. However, we should be told clearly what the dead died of.

"...I'll be corrected if I'm wrong. You see and judge. Does this look like a drone attack? If it's a drone, the bank is nothing, the asphalt is nothing, because it's hard for me to say that it's a drone without the image of people, houses, and trees that are on fire. Or by drone? Who is the killer? Why is the bank on the shelf? Let him learn the souls of the dead from the survivors.

They are slaughtered...!!

"...On October 23/2015, from 2:00 p.m., in the rural town of Huruta Dore Kebele, Jeju District, Huruta Dore Kebele, Addis Hiyot, the NGO spent the whole night killing and looting. As a result, 5 people were killed and many others were injured. Even the corpses of the dead were missing, until recently, who was missing. Although it is not known from whom, it is said that gunshots can be heard. The killers did not leave any property behind. They stole cattle, sheep, even motorcycles. As usual, before the massacre, he cooperated with the killers by destroying the telephone network. This is common in Oromia.)

"...This area is where Upper Awash Agro is located and where the oldest government farm development is located and now the farm that Alamuddin bought is the area where the Ethiopian nationals came to work and lived there for more than 80 years. But now they are being massacred according to the constitution of the government.

"...below Sodere, starting from Doni city, Addis Life, Tesfa Life, Abomsa, Merti, Matahara, all non-Oromo tribes are being massacred. On October 19/2015, they killed a young man named Asheber Alemayheu and left him on the asphalt. The special forces were there and when the special forces were leaving in the morning, it was said that the night Shene came and massacred them, but the killer was the special forces himself.

Oromo is cleaning Amara...!!

"...We hid in our mosque, but they entered there and killed 46 people. They killed my only #12 family, now I'm regretting it if they kill me too. Why did Allah save me? What is left for me after this?...»

"...when 8 Muslims and 7 Christians were killed in the Gondar conflict, Ahmadinej Jebel, Mujib Aminou, and Murad Tadese called a national rally. They chanted slogans to condemn Fanon, to accuse the Amara, and to say that genocide was committed in Gondar. In fact, they marched in Gondar. For the crime, Mujib Amin killed two Christians in Silte, burned 3 Pentecostal churches, 5 Orthodox churches, destroyed private property, and destroyed Addis Ababa in revenge.

"...You remember how the extremist Islamic media, Harun Media, led by his son Abdurrahman, and Zawya TV, said at the time, "Iri. There is nothing that will not happen. The day has come, and the entire Islamic Amara in the Wolag Kebele has been slaughtered, slaughtered, massacred by the Oromos. There is no pregnant woman, no woman, no child. They were slaughtered. They slaughtered 12, 15 people from one house. The Rwandan genocide took place. They entered the mosque and massacred all those who were hiding in the mosque. They cleaned them without leaving a single one.

"...We waited for Mujib's and Ahmadine's response. Be quiet. How can the Oromo accuse the Oromo? How can Mujib, the sly arsonist, breathe? His son Harun media is silent while watching the scraps the Oromos are throwing at him. The Oromo group has no regional Federal Majlis and shouts without hearing.

"...No Amara...!

"...In Oromia, it is not only the UNL, OHDE, Oromia Special Force and Shene who are killing Amara and exterminating their descendants. This is the Wahhabi Islam Oromo, a follower of Ahmadinejad Jebel, who lives in Oromia from a child to an old man. When he sees Amara and Orthodoxy, he will crush you and kill you like a snake.

"...The extermination of the Amara race is systematic in Oromia. Even if you are an Amara tribe, they will not rule you. If your religion is Orthodox, and if you are an Oromo, they will not rule you. Killing the women, children, and elders of the Amara is your righteousness. If the Amara and Orthodoxy are not eradicated from the Oromia land, they will not sleep. They have sworn. They have been conquered.

"...Don't say why Ahmedin Jebel doesn't protest, why Abiy Ahmed doesn't sympathize, why the parliament doesn't condemn it. Genocide, which is being designed and implemented at the policy level, will not stop with sympathy. A leaderless people has no other fate. My speech leads. However, the solution is to swallow it.
